DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 14, 2006 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claims 1 and 3 is that the prior art of record does not teach the steps of providing a metal catalyst on a surface of the uneven pattern after manufacturing the photoresist master and then washing the surface of the uneven pattern on which the metal catalyst is provided with a liquid as argued by applicant (the Remarks, pages 5 lines 9-10 and 17-20).

The primary reason for allowance claim 5 is that the prior art of record does not teach the photoresist layer having an uneven pattern on which an activated metal catalyst is provided, and the surface of the uneven pattern on which the metal catalyst is provide is washed with a liquid as argued by applicant (the Remarks, pages 5 lines 12-15 and page 6, lines 4-6).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
